First Baptist Lyons invites you to join us for this year's Judgement House Presentation/Outreach Event, "Deadly Encounter." Last year's response (2,183 attendees) and the many lives changed (53 salvations, 16 rededications. . .), we were compelled to use this powerful tool again in hopes of reaching many more souls for the Kingdom and encouraging many more saints in the kingdom! Attached is an informational flyer. We hope you will print these and post them at your church and in as many other areas as possible to get the word out. It is our blessed privilege to serve our community again this year in this way. Please feel free to contact me with any questions you may have. Hope to see many of you and your people there!

And I will give you shepherds after my own heart, who will feed you with knowledge & understanding. Jeremiah 3:15

Name: Chester Proctor

Church: Smith Street Baptist Church

Married to: Heather (Bevan) Proctor

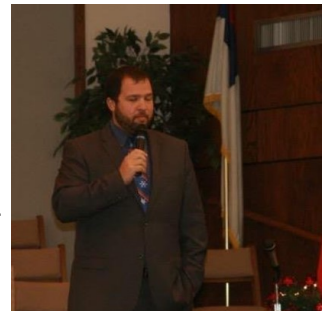

Children: Andrew and Ava

Favorite Bible Verse: Galatians 1:10 Am I now trying to win the approval of human beings, or of God? Or am I trying to please people? If I were still trying to please people, I would not be a servant of Christ.

Favorite Songs (At least one Christian & one secular): Where I Belong (Building 429), As the Deer (Hymn), Waiting for a Star to Fall (Boy Meets Girl)

Interesting Fact: I have been in radio almost 20 years and currently host a daily morning news show, regionally syndicated weekly biblical advice show, football scoreboard show on Friday nights, and call baseball play by play for Robert Toombs Christian Academy.

Short Bio: I am a 2000 graduate from Vidalia Comprehensive High School. He holds a B.S. in Business Management from Western Governors University and Masters of Arts Theological Studies (M.A.T.S.) with a concentration in Biblical Studies from Liberty University. I was ordained in October 2007 at Alston Baptist Church, where I served as pastor for over three years. I have also served as Youth Pastor and Associate Pastor before joining Smith Street Baptist Church in 2014, I has written the book, Game Changers: Understanding Effective Church Membership. When I am not spending time with my family or on my boat fishing, I enjoy working at Vidalia Communications Corporation (WYUM-FM, WTCQ-FM and WVOP-AM) where I got my start in radio broadcasting nearly 20 years ago and continue it, on the side, to this day.

Mud Out in a Minute

WARNING: The water and mud in your house was filled with all kind of bacteria. You MUST protect eyes, mouth, and nose. A small scratch can become easily infected unless you treat it at once.

Preparation: In order to avoid the above mentioned risk, do the following BEFORE you begin:

- Keep ventilation in house (doors and windows open) while working with bleach. Turn fan on if you have one.
- Wear Rubber boots or water proof shoes, and old clothes that you don't mind throwing away.
- Put on Latex gloves, mask and safety goggles.
- Put work gloves on OVER latex gloves.

Step One: Removal

- Remove furniture.
- Cut carpet in 2' strips and pull out.
- Wood floors and tile may need to be removed down to sub-floor.
- Use the chalk line to mark a line 2' above the high water mark. Cut through dry wall or paneling. (Try to cut walls at 2' or 4' heights. This will make installation of new walls easier and more cost effect.)
- Take out the cut wall material.
- Cut insulation at same height as wall and remove.
- If electrical wiring has cloth or paper insulation, it must be removed to last junction above high water mark.
- Pull all nails from exposed wall studs.

Step Two: Clean & Sanitize

- Mix "Shock Wave" (to be provided on site) with one gallon water in a pump up sprayer.
- Spray walls (exposed studs) with mixture.
- Wash walls with a pressure washer using the jet setting of nozzle.
- Use a squeegee or broom to push water out of house.
- Spray walls again with bleach mixture, but do NOT wash this spraying off.
- Let walls completely dry before installing new walls.

Things to remember:

- The flood environment is a highly contaminated area. Any personal injuries should be immediately cleaned and bandaged.
- Refrigerators and freezers cannot be salvaged and should be disposed. Do NOT clean out. Use duct tape to seal the appliance, and then remove it from the house.
- All tools and equipment should be decontaminated with the bleach solution daily.

PRAY for protection before starting and say a prayer of thanksgiving when completed.
